

October 5, 1976

Dear Dealer:

NEW REPLACEMENT FRAME ORDERING PROCEDURE

It will be mandatory that all future parts orders for any motorcycle frame be ordered on Engine, Crankcase, and Frame order form, part number 99514-76. We will then stamp all replacement frames with the proper V.I.N. as supplied on the order blank.

Do not supply V.I.N.'s that are incompatible with the frame ordered, as it will be necessary to return any invalid order.

You may continue to use the existing engine, crankcase order form until the old supply is exhausted.

This change is being made for obvious reasons. It should greatly assist all of us, especially law enforcement agencies, in helping to further prevent theft of vehicles.
