P&A #252

INNER VALVE SPRING PART NUMBER 18202-83

It has been brought to our attention that a certain quantity of Inner Valve Springs, Part No. 18202-83, that do not meet specifications may have been received by the Parts and Accessories Division and shipped to the dealer network.

Please check your inventory for any of these springs where date code 10/84, 11/84 or 12/84 appears on the packages and return them using the procedure outlined in the Warranty Manual for returning defective stock parts.

Any re-orders should be done using the same part number. All suspect inner valve springs have been removed from the Parts and Accessories Warehouse.

We apologize for any inconvenience this may have caused.
