P & A #310

## CONVENTIONAL BATTERY

PART NO. 66006-65A

Due to declining sales, and in an effort to simplify inventories at both the factory and dealer level, we will be discontinuing the above-mentioned battery as soon as our current supplies are exhausted. In the future, all orders for the above battery will be superseded to Part No. 66007-84 Heavy Duty Premium Battery.

We urge you to sell 66007-84 to customers requesting 66006-65A because it is a direct substitution, is nearly the same price at retail, is a more contemporary design and carries the same warranty. In addition, you make an extra \$3.05 profit per battery.
