PAB #464

## TRANSMISSION CASE FOR 1987 FLT & FXR MODELS

Transmission Case P/N 34730-87 used on 1987 FXR and FLT models has been obsoleted and will supercede to P/N 34730-88.

The 1987 Case had engine mounting bolt holes that were helicoiled to the size of .375 X 24. The 1988 Case has engine mounting bolt holes that are tapped to the size of .375 x 16.

When using Transmission Case P/N 34730-88 on a 1987 vehicle, the mounting bolts must also be replaced. The correct bolt to use is P/N 3528.

34730-87 Transmission Case is obsolete. Replaced by  
34730-88 Transmission Case.  
3538 Engine to Transmission mounting bolts to be used with  
Case P/N 34730-88.
