Motorcycle Oil Price Increase

Our oil supplier has just informed us of another price increase, effective October 15, 1990.

The Middle East crisis has doubled the cost of crude oil since August, 1990, and other recent increases in additives, packaging materials, and manufacturing costs have driven the cost of goods even higher. These conditions make a price increase necessary at this time.

Only those orders placed on October 15, 1990, and later will be billed at the higher price as follows:
