REAR SPROCKETS FOR ALL 1340 MODELS

As you may be aware, up until now we have only sold rear sprockets to service all 1340 belt drive models in a silver finish. Because of the continually increasing number of vehicles that were and are manufactured with black sprockets, we have decided to offer the sprocket to you already painted black to match the original part. We hope this will allow you to satisfy your customers needs more quickly and easily.

PART NUMBER	DESCRIPTION	APPLICATION	NET	RETAIL
40217-79A	70 TOOTH BLACK SPROCKET	DOMESTIC 1340 MODELS	88.478	147.49
