PAB1090: SCREAMIN' EAGLE UPDATES FOR DECEMBER 2019

Purpose for Parts and Accessories Bulletin

To inform dealers of:

- Screamin' Eagle® Pro Street Tuner calibrations on 2020 Touring, CVO Touring and Police models equipped with RDRS (Reflex™ Defensive Rider Systems).

Markets Affected

All markets are affected.

Key Messages

- All Screamin' Eagle RDRS calibrations for 2020 Touring, CVO Touring and Police models have been updated.
- Update all dealers computers with the latest Pro Street Tuner software. The software is available for update now through the normal update process.

Summary and Parts Affected

Screamin' Eagle Calibrations for 2020 RDRS Touring, CVO Touring and Police Models

Last month, Harley-Davidson discovered that 2020 Touring, CVO Touring and Police models equipped with RDRS and Screamin' Eagle calibrations were not reaching expected performance improvement levels set by the SE (Screamin' Eagle) team. The SE team has updated all Pro Street Tuner calibrations for 2020 FL models with RDRS. Update all dealers computers with the latest Pro Street Tuner software. The software is available for update now through the normal update process.
