

SAFETY RECALL CAMPAIGN INDEX

This is the index of all Motorcycle Safety Defect Recall Campaigns. They are listed by model year in the following model groups: Lightweight Models, XL Models, FX Models, FL Models, and FLT Models. If a recall affected more than one model group, it is listed in each model group. Recalls that cover more than one model year are listed for each year covered. Therefore, if you are working on a 1979 FXE, you need only refer to the FX models chart for the year 1979 where you will find all the recalls pertaining to that model and year. Service Bulletins that have been revised are listed by the revised bulletin number and date only. Please note that some recalls were covered in a letter rather than a Service Bulletin.

NOTE

V.I.N.s are given only as a quick reference. For exact

lists and service instructions always refer to the Service Bulletin(s) listed for each recall.

If at any time you are not sure that a recall has been performed on a given vehicle, please call the Service Department for a quick check of our recall records. Remember that a recall never expires and should be performed on a recalled vehicle regardless of its age or mileage.

This index is intended for your reference only. Please file it with your Service Bulletins and use it in conjunction with the Service Bulletin Index, Service Bulletin No. M-801, when working on a customer's motorcycle.

HARLEY-DAVIDSON MOTOR CO., INC.

LIGHTWEIGHT MODELS
SAFETY RECALLS

MODEL YEAR	MODEL	RECALL NUMBER	DATE	BULLETIN NUMBER	POSSIBLE DEFECT	V.I.N. RANGE
1968	M-125 Rapido	003	3-1-68	565A	Stoplight Switch	Below 68 ML 10664
