

# SERVICE BULLETIN

B-074

June 13, 2008

## 2008 1125R THROTTLE POSITION SENSOR SERVICE

### Purpose

The purpose of this service bulletin is to communicate to the dealers, the throttle position sensor will no longer be serviced as a separate part on 1125R models. Because of runability issues associated with replacing only the throttle position sensor (P0279.5AA), Buell is instructing dealers to replace the throttle body when a throttle position sensor fails. The new throttle body will include an installed throttle position sensor.

### Motorcycles Involved

All 2008 Buell 1125R motorcycles.

### Required Dealer Action

Notify service and parts personnel of service bulletin. Update affected manuals listed below.

#### NOTE

*This update will also be reflected in a future Digital Technician II release.*

### 2008 Buell 1125R Electrical Diagnostic Manual (Part No. 99949-08Y)

In 6.8 THROTTLE POSITION (TP) SENSOR, DTC P0122, P0123, P1112, correct text in flowcharts that reads "Replace TP sensor" with "Replace throttle body."

### 2008 Buell 1125R Parts Catalog (Part No. 99572-08Y)

In THROTTLE BODY, remove "P0279.5AA SENSOR, throttle position."

#### IMPORTANT NOTE

In the interest of preserving customer safety and satisfaction, always check for outstanding recalls whenever any motorcycle is brought into your dealership for either maintenance or service.
